WILL BE NO ADAM THERE

To Be Excluded from Dr. Walker's Garden of Eden.

The Noted Dress Reformer to Found a Colony in Which Man Shall Have No Part—A Home for a Bloomer Girl.

Dr. Mary Walker, who forty years ago preached the gospel of dress reform to the women of this country, and who was arrested in many cities for dressing and appearing in public in male attire, is the apostle of a scheme for the bloomer girls, says the New York Herald.

Dr. Mary has bought a farm containing one hundred and thirty-five acres of land seven miles west of New York city, and proposes to form a colony in which man shall have no part. Only women who will bind themselves to a life of celibacy while members of the community and to wear bloomers for life are to be eligible. They will work the farm in all its details, plant and harvest the crops, dispose of them in market and take care of the stock.

"We will all live in a large, commodious farmhouse, for which I have plans prepared," Dr. Walker said. "Every member will have her own room. Portieres will take the place of doors. Steam will be employed for heating purposes, and there will be bathrooms and every convenience to be found in a well-regulated and modern house."

"I shall give my personal supervision to the establishment. Members, however, will elect officers twice a year to conduct it. There will be an auditing board to look after all accounts, an improvement board to look after improvements to the property, and a governing board."

"It shall be the duty of the chairman of the latter to report all infractions of rules by members. There will be two judges chosen. One will have powers similar to a police magistrate; the other will have a position analogous to our general term. Those accused of infractions of the rules will be tried by a jury of five, and, if not satisfied with the judgments of the lower courts, they can appeal to me. I will sit as a court of last resort."

The rules of evidence as governing our state judiciary will apply. There will be no imprisonments; all punishments will consist of withdrawal of privileges for a certain length of time. If we should get into our fold undesirable women, who flirt or gad about with men when they go to market, or on other occasions, they will, after suitable warning, be expelled. All females of good character, between the ages of fifteen and thirty-five years, are eligible for membership. I am certain that the farm can be made to support fifty or seventy-five persons.

"Each member will have a share in the profits after the expense for board and clothing has been deducted. The remainder will go into a general fund for betterments and the purchase of adjoining lands, if it is deemed necessary and the community grows as rapidly as I believe it will. I have not decided whether it would be wise to exact an initiation fee or not. If it is so decided it will be comparatively small."

"Any member will, after three years in the community, be eligible to retire, taking with her the amount of the initiation fee, if one has been charged, and seven-eighths of her share of the earnings, the other eighth to go into the general fund."

"My great object is to educate and to turn out new women, as the newspaper men term them. They will be women who have governed themselves. I expect lots of politics in the community, and the members will soon be able to hold their own. I warrant, with some of the so-called statesmen of the present day."

"Besides, it will not all be farm work. There will be many hours each day for study, and the curriculum will be as broad and extended as that in any of our universities. There will be frequent lectures in a large assembly room that I propose to have, and current literature, politics and questions of the day will be discussed. The members can ride bicycles, and a number will be kept for their use."

"There will be horses, but no side saddles. My girls will ride astride, as do the men, and I predict that three years of life in our institution will make the members the peer of any man physically or mentally. I will not make rules that will defy all the laws of nature and exert pledges binding for life. That of dress will be the only life pledge that will be asked."

"I expect that many of those who come to us will go forth from our tutelage to enter the homes of men to become wives and mothers. When such time comes they will know how to be both, and how to raise and educate families that will reflect credit upon the nation of new women."

Takes After His Sister.

A nineteen-year-old brother of Melba has developed a good tenor voice.

Who wins in the race? Is it a weak man? Is it a man who is weak? Is it a man whose blood is impure? An athlete trains for every race. The best athletes train all the time. They are always in perfect condition. It is pretty safe to say that the best man will always win. The man who is strong and in the best condition will surely distance his competitors.

In the race for success, the best man will win if he takes care of himself. He cannot win if he neglects his physical condition. It doesn't make any difference how smart he is. If his body isn't strong, he will never finish the race. He must look first for a clear, healthy, strong body, because the body makes and supports the brain. If the heart pumps impure blood into the brain, you cannot expect the man to be clear-headed, you cannot expect him to accomplish much. If a man's blood is pure and rich, there can not be much the matter with him. If it isn't pure and rich, he may have almost any disease under the sun, and Dr. Pierce's Golden Medical Discovery will cure it. It doesn't make any difference what form the disease takes, or by what name it is called. Nearly all diseases spring from impure blood. If you make the blood pure, you remove the cause and cure the disease. That's common sense and medical science—and scientific sense.

You might learn a thousand valuable lessons about preserving your health by reading Dr. Pierce's Common Sense Medical Adviser. It is a grand book and the present edition is absolutely free to all who send 21 one-cent stamps to cover cost of mailing only. It contains 1003 pages and over 300 engravings. 680,000 cloth-bound copies have been sold at \$1.50 each. This free edition is in strong manila paper covers, otherwise it is just the same. THE MIDWAY HEIGHTS.

Some of the Amusements Planned for Visitors to Atlanta.

A View of the Lighter Side of the Big Exposition—The Leaning Tower and Scenic Railway Are Drawing Cards—Other Concessions.

The lighter side of the big exposition—that presenting the amusements of the Midway Plaisance type—fairly bristles with attractive things, says the Atlanta Constitution. The list of attractions that make up this feature shows a fine array of excellent amusements. The fine judgment and wide experience of Edmund A. Felder has been of invaluable service to the committee in selecting the best features from the many that were offered. Applicants have come from every part of the world to make a try for a concession at the exposition. They have come from Cuba, Japan, England, France and South America. They have brought with them certificates of character and financial standing and volumes of literature concerning the shows which they propose to bring to the exposition.

The location of the Midway Heights is extremely favorable to its success as an amusement street. It is situated on the high, commanding hill in the southern part of the grounds, and overlooks the entire exposition. Its location is not only picturesque, but has the advantage of being removed from the other parts of the grounds. Among the most important concessions let for it is that which went to Nate Saulsbury for Buffalo Bill's famous wild west show. Another excellent concession is the scenic railway. It is the work of Mr. Thompson, who had the same feature at the Chicago and San Francisco expositions.

Myers' leaning tower is said to be the star attraction of the Midway section. The tower will be one hundred feet out of plumb, will be about three hundred feet high, and elevators will carry crowds up and down in it from morning until night. It is to be built and operated by George F. Myers, an Indiana man.

There will be reproductions of the best features of the Midway at Chicago. For instance, the Chinese, Japanese, Indian and Mexican villages will be shown here. Cairo street, which was one of the most popular shows in Chicago, will be much better in Atlanta than at Chicago. There will be several interesting theaters on the grounds that will attract the visitors. The electric scenic theater will be a great drawing card. The concessions for theaters have been let to Atlanta parties and they will make splendid show places out of them, realizing that the enterprises will pay extremely well.

There are countless other attractions of wide interest. A number of them are local and southern in character. A great feature that will be immensely popular with northern visitors will be the Georgia barbecue pavilion, which will be presided over by the fat Sheriff Calloway, of Wilkes. It will be kept in full blast all the time, and will be a great success.
